The City of Foster City partnered with Bowditch Middle School and the San Mateo-Foster City School District to collaborate on a detour route and alternative drop-off and pick-up locations to enhance safety and help alleviate traffic around the Levee Improvements Project area.

**PLEASE NOTE:**

This means that residents should expect to see increased vehicular, pedestrian and bicycle traffic along the designated route, near alternative meeting locations and surrounding neighborhoods during typical school drop-off and pick-up times.

We appreciate your patience and understanding as we work to ensure students are able to safely get to school while progress continues on the Levee Improvements Project.

**Below are important detour route highlights, as well as safety and traffic tips:**

Students and families are encouraged to use the detour options along **Marlin Avenue** in lieu of traveling along **Beach Park Boulevard**, where heavy traffic is expected.

Left turns onto or from **Beach Park Boulevard at Tarpon Street** and **Swordfish Street** will be prohibited Monday through Friday during drop-off and pick-up times, which are from 7:30 a.m. to 8:30 a.m. and 2:30 p.m. to 3:30 p.m. respectively. Signage will be posted.

Designated meeting areas at **Marlin and Sunfish Parks** have been established so students can safely walk to and from the campus using available sidewalks and crosswalks.

The Foster City Police Department will have an increased presence in the area to enforce safety protocols.
